

# SONITROL PROVIDES THE BEST SECURITY OPTIONS TO FIT YOUR NEEDS.

PROTECT YOUR PEOPLE AND YOUR PROPERTY

## INTEGRATED PROTECTION.

Your organization does tremendous good for the community you serve. It's no secret that churches have been targets for horrific active shooter incidents, burglaries, fires, and more that threatens your ability to carry out your mission.

Sonitrol provides integrated security solutions specifically tailored to the needs of faith-based organizations. Using Panic Buttons and our proprietary technology—verified audio & video detection—our trained professionals can actually hear and watch an intrusion attempt as it occurs. This unique technology actually reduces false alarms and increases apprehension of criminals and vandals.

We offer a complete, integrated program to secure your members, staff, clergy and valuable assets such as computer equipment, cameras and cash. In addition to intrusion alarms, we offer technology to restrict unauthorized access, camera monitoring of vulnerable areas such as childcare rooms, fire detection, and professional monitoring 24/7.

# Security Tips

## Active Shooter

Having **panic buttons** under the podium and in key points around the church can help pastors and members alert our monitoring station and the authorities while staying calm during an intruder situation

Combining our **access control** with **video surveillance** and 24/7 monitoring station we can give your facility an extra set of eyes and alert the authorities if an unwanted guest tries to enter your facility without proper access.

## User & Entry Management:

Sonitrol **access control** is great for churches especially when you want to have your facility available to your congregation anytime of the day but you also want to make sure that only authorized guest have access to enter your facility.

Keys can be expensive and unreliable when you don't know who has them. With Sonitrol access control and our **mySonitrol** management platform you can be sure that the correct people have access to facility along and control when they have access.

## Theft

Churches are prone to theft, from cash in the giving plate, to the food & equipment in the kitchen. With our **video surveillance systems** we can help you see who is stealing and what they are stealing. We offer multiple camera options and solutions depending on what your needs are.

## Child Care

Our **access control** technology and **video surveillance systems** can restrict unauthorized access, to vulnerable areas such as childcare rooms.

**Panic buttons** also add an extra level of security from unwanted guest.

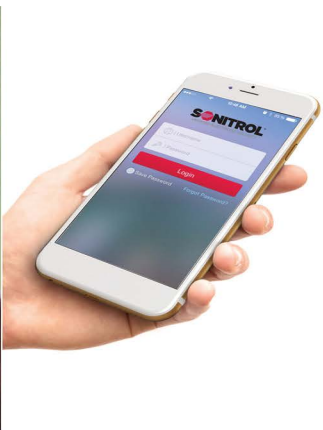

Especially with children you never know who might try to come through those doors.

## ALWAYS ON THE JOB.

- ✓ Full Protection Against: Intrusion, Vandalism, Theft and Fire
- ✓ Less False Alarms
- ✓ Faster Prioritized Police Response
- ✓ Consistently High Apprehension
